

The godly statue: book 1 the sword of the order

## The adventure begin

Day 1

Hi my name is ant and I am a swordwrath, me and my friends ( David,John and Bob) Bob and David are swordwrath also and John is an Archidon, are trying to find the godly statue. I want to retrieve that statue because an oracle predicted that when I touched the godly statue I will retrieve my old memori. ( apparently I have lost it a month ago)

We were chatting about where the statue was when we saw a dark shape but we still kept on then we saw a panel, it said *no one got **past here**...* we were not scared then we saw a few black shapes. We arrived in a forest and then realized that we fell into an ambush!!

We quickly took battle position when 25 savage skin spearton arrived and surrounded us then 5 of them rush at us, and tried to kill us but luckily John quickly took his bow and started shooting 3 of them then I rush in the fight and engage the 2 spearton and Bob and David were also fighting one each. I saw an opening and stabbed him in the chest then did 2 backflips and stabbed him 2 times in the heart then I ran and helped my friends, who were winning.

Finally we won but everyone was badly injured so we stayed here for the night because the fight was really tiring and we found some medicine. The night was quite too quiet but it was not my place to complain. We woke up and the sun was shining bright illuminating the area.

Day 2

As we walked we decided to go south as the oracle had advised us, we hunted because we were out of food but then we realized that it was super quiet. Then 50 shadows surrounded us. So we ran away before they could come near us but they caught us though they lost a few people. We quickly attacked them and then we saw another savage tribe but they have yellow and blue savage skin not yellow and black. They quickly attacked the other savage tribes and we had enough time to run away.

## The duel

As we ran away we got some sleep and we hid into bushes. When we were walking we saw a magikill leader saying “ we will beat those little leaf giants, the ice spearton and magikill we will kill them and take back our territory.” We hid in the bushes and waited a few seconds. Then we all broke into a sprint as the magikill and the spearton exterminated the giants in a few seconds.

But then an ice spearton stopped me and said I will fight you now. Then he said he wanted a one on one duel. He took a battle position and he rushed at me ( I had accepted the duel because if I won he would be an ally) but I dodged and attacked him but he simply blocked with his shield. I realized that I will need to take out his shield before beating him. Then he kicked me and made my sword fly, I did a summer kick and a roudson kick and his shield flew. I took his shield and I hit him on the head 2 times and I made him trip. He fell unconscious, when he woke up he told us his name was Icy.

## The prince

### Day 3

We woke up and it was morning we could see the cold breeze and the bluish water next to us. We started to walk but then we were surrendered by water so we had to swim our way forward. Then we saw a house and as we walked past it we heard some noise. We look at our surroundings and we saw a few magekill closing on us and one of them had the sword of the order, I punch him then broke his arm and my friends closed in on the magikill who had completely failed their ambush and I took the sword of the order and attacked the minions of the magikill.

We continued walking when we arrived at a long forest. It had a long red banner, there were 2 fire spearton so we quickly killed them. But a giant lava spearton ( the prince of the speartont of fire) and he looked at Icy. Icy swell 3 times his size and scream ice spearton as did the prince of the spearton with the fire skin. They both started fighting and then the fire spearton just got killed by Jhon with his bow and Bob and David were attacking him. The lava skin spearton ran away.

A magikill appeared out of nowhere and attacked me. I quickly blocked it with the sword of the order (it was not really strong because the 3 gems that powered it were not at their place.) I flew a few meters but I could slash at the hand of the magikill then I ran and fought him without his staff he was weaker and I could cut off his head, he was too strong for a normal magikill then I saw one of the 3 gems and placed it.
